

Helping Develop the Minds of Tomorrow... *in Nature.*

Ball's Falls Nature School welcomes your child's curiosity as we bring education out into the wilderness!

This full day, alternative outdoor education program is filled with Ontario curriculum-based activities, designed to meet the learning abilities and individual needs of students.

Led by OCT certified teachers, Nature School students will have countless of opportunities to explore nature and discover the environment that surrounds them, incorporating math, reading, writing, science, social science and art.
