SUMMER 2019

ADVENTURE DAY CAMPS

- ✓ Offering immersive, educational, environmental and historical activities
- ✓ Learn about the environment
- ✓ Identify diverse plants and animals
- ✓ Discover the great history of the area
- ✓ Each week features nature hikes, historical tours, group games, crafts, experiments, and nature play and discovery

FOREST EXPLORERS

JULY 2nd - 5th / JULY 29th – AUG. 2nd

Discover biodiversity and locate the habitats of our forest friends! Campers will journey into the wilderness to learn about plants, animals and insects using scientific inquiry skills. Campers will complete a habitat construction challenge, track animal prints and finish a forest obstacle course. Through these STEAM (Science, Technology, Engineering, Arts & Mathematics) activities, they will experience life as a park ranger and ecologist!

SURVIVING HISTORY

JULY 8th -12th / AUGUST 6th - 9th

Experience pioneer life and what it was like to live in the village of Glen Elgin during early settlement. Activities may range from helping in the gardens, to building a barn, and forging tools in the blacksmith shop. Through the week, campers will make a treat in the brick bake oven, grind their own flour in the grist mill and play Victorian-era games.

SUMMER 2019 ADVENTURE DAY CAMPS

SUMMER SURVIVORS

JULY 15th - 19th / AUGUST 12th - 16th

Have you got what it takes to survive the wild and the natural local elements? Campers will learn to navigate through the forest, build shelters and fires, and discover the bounty of the environment around them. Working in teams to complete the ultimate survivor challenge, campers will make use of their newly acquired archery, emergency signaling, and water purifying skills and abilities.

WET AND WILD

JULY 22nd - 26th / AUGUST 19th - 23rd

Dive into the world of wetlands and wildlife at Ball's Falls! Take a dip into aquatic life with pond and stream studies, meet the reptiles, amphibians and insects that call the creek home, and traverse the trails looking for important species and their habitats. Campers will learn about water conservation, build their own wetlands and participate in water relay races.

ULTIMATE ADVENTURE

AUGUST 26th – 30th

Trek through the forest searching for clues on an interactive scavenger hunt. Sharpen your skills in archery, create a team logo and cheer, and participate in the Summer Survivor Challenge! Channel the movements of your favourite animal and try to make it through the Habitat Maze. Campers will also create their favourite treats over the campfire and make incredible crafts to wear back to school.
